Instructions to Authors vii

Original Research Papers

M.A. Gray, R.W. Kimarua (Kenya), A.S. Peregrine (Kenya) and P. Stevenson (Kenya)
Drug sensitivity screening in vitro of populations of *Trypanosoma congolense* originating from cattle and tsetse flies at Nguruman, Kenya 1

S.A.O. Agbe and K.L. Yielding (USA)
Effect of verapamil on antitrypanosomal activity of drugs in mice 11

S.K. Kar, S. Patnaik (India), V. Kumaraswami (India) and R.S.N. Murty (India)
Side reactions following ivermectin therapy in high density bancroftian microfilaraemics 21

S. Eresh, A. Mendoza-Leòn and D.C. Barker (UK)
A small chromosome of *Leishmania (Viannia) braziliensis* contains multicopy sequences which are complex specific 33

B.R. Holzer (Tanzania), M. Egger (Switzerland), T. Teuscher (Tanzania), S. Koch, D.M. Mboya (Tanzania) and G.D. Smith (UK)
Childhood anemia in Africa: to transfuse or not transfuse? 47

S.K. Kar, J. Mania and P.K. Kar (India)
Prevalence of lymphatic nodule in a bancroftian endemic population 53

A. Estrada-Peña (Spain), A.A. Guglielmone, A.J. Mangold (Argentina) and J. Castellá (Spain)
Patterns of cuticular hydrocarbon variation and genetic similarity between natural populations of *Amblyomma cajennense* (Acari: Ixodidae) 61

R. Udomsangpetch (Thailand), A. Kulane (Sweden, Somalia), K. Berzins, H. Perlmann, P. Perlmann and B. Wåhlin Flyg (Sweden)
Enzyme-linked staining method for light microscopic detection of antibodies to parasite antigens on the membrane of *Plasmodium falciparum* infected erythrocytes 79

Short Communications

A.M. El-Hassan (Sudan), E.E. Zijlstra (Sudan, The Netherlands), S.E.O. Meredith (The Netherlands), H.W. Ghalib and A. Ismail (Sudan)
Identification of *Leishmania donovani* using a polymerase chain reaction in patient and animal material obtained from an area of endemic kala-azar in the Sudan 87

S.G.A. Leak (Kenya) and W. Mulatu (Ethiopia)
Advance of *Glossina morsitans submorsitans* and *G. pallidipes* along the Ghibe-river system in southwest Ethiopia 91

Issue 3 – November 1993

Instructions to Authors iii

J.C.K. Enyaru (Uganda), J.R. Stevens (France), M. Odiit (Uganda), N.M. Okuna (Uganda) and J.F. Carasco (Uganda)
Isoenzyme comparison of *Trypanozoon* isolates from two sleeping sickness areas of south-eastern Uganda 97

H. Feldmeier (Germany) and I. Krantz (Sweden)
A synoptic inventory of needs for research on women and tropical parasitic diseases. I. Application to urinary and intestinal schistosomiasis 117

H. Feldmeier, G. Poggensee (Germany) and I. Krantz (Sweden)
A synoptic inventory of needs for research on women and tropical parasitic diseases. II. Gender-related biases in the diagnosis and morbidity assessment of schistosomiasis in women* 139

A.M. Celentano and S.M. González Cappa (Argentina)
In vivo macrophage function in experimental infection with *Trypanosoma cruzi* subpopulations 171

B.F. Giffin and P.P. McCann (USA)
Altered intracellular polyamines in bloodstream form *Trypanosoma brucei brucei*: transformation to procyclic trypomastigotes 181

Issue 4 – December 1993

Instructions to Authors iii

P.E. Omholt, B.A. Cox, L.C. Prine, S. Byrd, L.W. Yielding and K.L. Yielding (USA)
Use of drug-specific antibodies to identify ethidium adducts produced in *Trypanosoma brucei* by photoaffinity labeling 191

J. Langand, V. Barral, B. Delay and J. Jourdane (France)
Detection of genetic diversity within snail intermediate hosts of the genus *Bulinus* by using Random Amplified Polymorphic DNA markers (RAPDs) 205

J. Bowles, M. Hope (Australia), W.U. Tiu (The Philippines), X. Liu (People's Republic of China) and D.P. McManus (Australia)
Nuclear and mitochondrial genetic markers highly conserved between Chinese and Philippine *Schistosoma japonicum* 217

W.A. Rahman, A.A. Hassan, C.R. Adanan and M.R. Rashid (Malaysia)
The prevalence of *Plasmodium falciparum* and *P. vivax* in relation to *Anopheles maculatus* densities in a Malaysian village 231

P. Vanamail, K.D. Ramaiah and P.K. Das (India)
Risk of infection of *Wuchereria bancrofti* to humans by *Culex quinquefasciatus* in Pondicherry and its relationship with microfilaria prevalence 237

K. Bhanganada, H. Wilde, P. Sakolsataydorn and P. Oonsombat (Thailand)
Dog-bite injuries at a Bangkok teaching hospital 249

Short Communications

W. Huber and J.C. Koella (Switzerland)
A comparison of three methods of estimating EC_{50} in studies of drug resistance of malaria parasites 257

W.A. Rahman, A.A. Hassan and C.R. Adanan (Malaysia)
Seasonality of *Anopheles aconitus* mosquitoes, a secondary vector of malaria, in an endemic village near the Malaysia-Thailand border 263

Author Index, Vol. 55 267

Key Word Index, Vol. 55 269

Cumulative Contents, Vol. 55 271
